

## APDQ & APDX SERIES

### Air Pressure & Vacuum Pumps

How about a device powerful and durable enough to collect machine oil, cutting fluids, drainage, sludge and even paint booth wastes? APDQ Series are a variety of pumps for different applications, where you need it and how you need it. Their liquid collection ability is unrivaled.

And how about a device functional enough to become your irreplaceable tool in drum can liquid management? APDX Series consist of pumps capable of both suction and delivery. It is a "Swiss army knife" of liquid transfer. To effortlessly switch between functions simply use device's lever.
